It is the policy of Yazaki North and Central America to provide a safe and healthy workplace, strive to prevent injuries and illnesses and promote environmental stewardship.

We will:

- Utilize business planning principles to establish and maintain objectives and targets
- Meet or exceed all relevant governmental, customer and other requirements to control safety risks and mitigate environmental impacts
- Continually improve our performance
- Protect our employees and prevent pollution

Fulfilling these commitments will ensure our operations and activities do not adversely affect the health and safety of our employees and visitors while maintaining a sustainable environment
